Rocks!!

Dear Whitney,

As a parent of a child with diabetes, making the JDRF Maryland 2012 Walk to Cure Diabetes a great event. The addition of your music playing as the families were coming in and preparing for the walk truly added to the amazing experience of the day. My daughter Madison was diagnosed when she was four, and this was our 9th Walk. Our commitment to Madison has always been that we will actively work to find a cure for her, and these walks allow us to do that. Having the walk be an "experience" helps bring people out & generate more funds, so your presence & effort makes a difference, so again, Thank you!

Sincerely, Lisa Zehring
